Personally, I wouldn't utilize the word palpable. It wasn't as dark as her other two books. I'm one of many
few that believe Gone Girl to be highly overrated. That's not saying I didn't enjoy it. I did. The difficulties
I've with it is the major plot twist was painfully obvious well before I obtained there and the ending made
me mad as hell. I much prefer Dark Places. I have just started Sharp Objects and I'm enjoying it.
Hi Natasha, I believe I just answered your next question. As to my favorite period, that's a tough one. I've
been working lately in early 20th century New York, and I've really been enjoying it. But I think any period
I dig into soon becomes my favorite.
It was either to get publicity and hype by "revealing" who Robert truly was or, our thought, is that JK
wanted to test her hand at something completely different from Harry Potter in order to observe how well
she could do with a brand new name. HP is just a huge series and she's a lot of fans who would jump at
any book she wrote, regardless. Maybe she wished to see if she could sell well without that baggage.
No, she did not. The twins are fictional.
I wondered exactly the same thing. In all the years he was gone nothing is mentioned. And when he
comes home Josie never asks him anything about it. I just kept hoping that even though he distanced
himself from her because of the age difference that he "saved" himself, because at one point he makes a
remark about biding his time and waiting for her, I think it was when she was going to marry Kasey.
The "cheerful ladies" are Mma Ramotswe and Mma Makutsi, the women who keep Rra Matekoni's world
together while he is in the depths of depression.
The doorbell rang and Claude commented that four police were sent. Your day before, Claude and Trudy
were questioned by two. I'm assuming the increase in numbers is to help for making the arrests.
Just got asked this on an expert Facebook group I'm a member of: You may do worse than David Mamet's
"Three Uses of the Knife" and "On Directing Film," even though they affect theater and movies,
respectively, and not prose. Mamet's views of storytelling, while often extreme, are worth hearing and
considering, even when you get not agreeing with each of them.
I hope so too. I believe he had realized that she could be his mate. Not saying she's or anything. But i
prefer to believe that she might be. I do hope she can forgive him for it. However.... can he forgive
himself too?
i read an edition from the 2000s and it'd typos as well. glad i'm not alone who saw it! i wondered if it
absolutely was supposed to point Lauren's youth towards the start of the book - perhaps and incomplete
education.
Ol just want to say thank you for writing a book set in Canada (I've just started reading Pestilence) I love love all the references and Canadian jokes, I'm so glad I bought the book and I'm having so much fun reading it. I can't wait to finish the book and read the next one. My question is what made you want to set the book in Canada/ British Columbia to be exact?

What was the name of Papa's dog that was always getting into trouble with the police department? Is it sad that I want her to keep them BOTH in Pretend He's You?? It burned my eyes out and upset me so much I cried. happy? I pre-ordered. Three months of waiting to go ;) I haven't read the book but just watched a dvd of heaven and hell. ... compared to the first and second books, I think the storyline sucks... even the acting is terrible... quite strange... same characters. Was this third part a much later after thought? Dear, Ms. Rae Hello :) I really enjoyed Grown Mbn #1, I thought it was a really fascinating and fun sci-fi story, loved reading it. I was curious about the next one, I assume with the #1 that #2 will follow, do you have a date ish for that? Loved The Vanis strong female protagonist and emphasis on the investigative work to solve the cases rather than gratuitous, gory details about the victims. But why a bike alone at midnight the night she got abducted? I don't know the answer but I'm so happy to have gone to the hospital which spoiled her birthday party. It was a very risky thing to do. Thanks! I can't wait to put my hands on this hot read. How do you like the writing world? Any similarities to 'The Unlikely Pilgrimage of Harold Fry'? I am so happy to have won a copy of your book. My name is Denise Jones, I work at Huntington high school library in Huntington Texas. I will love to read this book. The story sound very good and I am excited to read it. I would like to know what age group you think this is best suited for.

Hello, Ms'am! Loved reading The Palace of Illusion. Remodeling the epic tale from woman's perspective is an amazing task. Hats off to you ... Which materials you have used to work on this book? What was the best comment you have got for your books? Lots of respect !! You trained as a ship's officer at the Australian Maritime College. How did your hands-on experience sailing the world's oceans help you write this book? For me, sometimes it's hard to follow the seemingly randomness that he writes in. His writing style is more like regular speech- going back and forth, which makes it hard to fully understand. Also, I think the vocabulary and the way of expression was different back when he wrote the book. Am I alone in this assessment? c, what mistake does abagnale make that nearly causes him to be caught?
